EDUCATION

Sandip University, Bihar

B.Tech in Computer Science Engineering | 2024-2028

CGPA: 8.85 / 10.0

Class XII | BSEB | 2024 | 69.2%

Class X | BSEB | 2022 | 84.2%

TECHNICAL SKILLS

-
- **Languages:** C++, JavaScript, C, SQL
 - **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, React
 - **Backend:** Node.js, Express.js
 - **Databases:** MongoDB, MySQL
 - **Cloud & Tools:** Git, GitHub, VS Code, MongoDB Atlas, Cloudinary, Vercel, Render
 - **Core:** Data Structures & Algorithms, OOP

PROJECTS

PrepAI | MERN, Tailwind CSS, Gemini API, JWT

- Developed an AI-powered interview preparation platform that generates personalized technical interview questions based on user resumes and target roles.
- Implemented JWT authentication, OTP verification, interview history tracking, and a daily credit-based interview system.
- Integrated Gemini API to provide AI-generated interview feedback and performance scoring.

CareerSync | MERN, Tailwind CSS, JWT, Cloudinary

- Built a centralized placement portal enabling students, recruiters, and admins to manage end-to-end recruitment workflows.
- Implemented role-based authentication (JWT) with secure access control and protected dashboards.
- Designed a one-click job application system to simplify the application process and improve user experience.
- Integrated MongoDB Atlas and Cloudinary for scalable data storage and secure resume handling.

ACHIEVEMENTS

-
- Solved 150+ DSA problems across LeetCode and GeeksforGeeks, focusing on Data Structures & Algorithms.
 - Participated in Google developer and AI community programs, exploring cloud and generative AI technologies.
